PROFESSIONAL EXPERIENCE

I am a Full Stack Web Developer with two years of in-depth experience in developing and deploying dynamic web applications. Proficient in both frontend and backend technologies including **HTML**, **CSS**, **JavaScript**, **React.js**, **Node.js**, **Express.js**, **MySQL**, and **MongoDB**. Strong background in data structures and algorithms in **Java**. Demonstrated ability to create robust, scalable web solutions and a track record of successful project completions. Actively participated in workshops and live meetings to enhance skills and stay updated with industry trends.
